PROFESSIONAL SUMMARY

I am an Informatics Cadet at the Indonesia Defense University (UNHAN RI) with a strong interest in data analysis, system development, and modern computing technologies. I possess technical skills in Data Science, web programming (PHP, Python, HTML/CSS, SQL, JavaScript), as well as cloud and operating systems.

In addition to technical expertise, I have solid abilities in public speaking and content planning, enabling effective communication and teamwork. I am disciplined, analytical, and motivated to contribute to the development of efficient, secure, and impactful technology solutions for organizations.
